Two Policemen Die in Gun Fight

Train Robbers Enter Bellevue Cafe And Resist Police.

The train hold-up and robbery reported in these columns last week have since developed into a more serious situation. On Saturday last, two of the desperadoes put in appearance at the Bellevue Cafe, about noon, where they were engaged in talking of luncheon when disturbed by the presence of police. With that exception to the suspicious looking characters by neighbors of the vicinity. Corporal Usher, of the R. C. M. P., Corporal Baillie, of the A. P. F., and Constable Frewin, of the Alberta provincial police force, were on the scene, the former entering the back and the two latter guarding the front entrance. The two men were located in the second booth from the front, and when ordered to hands up, immediately showed signs of resistance. A second volley from the police was followed by prompt action by the bandits, who opened fire. Baillie with two guns and Akroff with one. Several shots were exchanged, before Corporal Usher and Baillie fell victims. The bandits made an effort to escape, and in making their exit Akroff was met with the fatal shot from Constable Frewin, and after struggling away for about fifty yards in the direction of his partner, dropped to die. Baillie fell off his seat before being wounded by a rifle shot which however failed to stop him. He was seen to strike towards the side. Akroff's body was moved in to the rear store of F. Wolstenholme and placed beside those of the dead officers.

Volunteer posse of citizens were armed with rifles and guns of various descriptions and an immediate search was made for the escaped Baillie. Several days resulted in little or no success, until Thursday night at a late hour Baillie was located in a shed by the railway line just a few miles west of Hatcher Station. Baillie made no effort to escape the police and after being taken to Lethbridge made a partial confession of what Baillie had since the date of the hold-up at Lethbridge.

On Sunday, a special constable named Dick Foster, better known as the Duke of the game indignantly, as the bandits, was shot dead by a policeman for refusing to halt when ordered. Kilkil was buried at Hillcrest, following an inquest in which the jury returned a verdict exonerating the constable. Kilkil leaves a wife and couple of small children. The remains of Corporals Baillie and Usher were taken to Macleod and buried with full military honors on Monday. Corporal Baillie was about thirty years of age and leaves a wife and young child, residing at Macleod. Corporal Usher was about twenty-five years of age and single.

The remains of the bandits were placed in a rough box and buried quite unceremoniously at Bellevue.

The police set out for the third member of the hold-up gang, acting on information obtained from Baillie. As we go to press an unconfirmed report states that Akroff has been taken from a boxcar at Kingsgate by C.P.R. police.

The preliminary hearing of Baillie will take place at Lethbridge on Tuesday.

Chautauqua is Here

The Crow's Nest Pass annual Chautauqua commences tomorrow and promises to be bigger and brighter than ever, though the admission price remains the same.

The committee in charge, handicapped as they are by the rush of business, are straining every effort to make this a record-breaker for attendance and it is to be hoped their efforts will be attended by success.

No one can afford to miss the inspiration and education that are contained in the six days commencing tomorrow. Performances start at 8 and 7.30 p.m. Junior Chautauqua will meet every morning at the usual hour for the benefit of the young folks.

The name of "Wills" has been firmly established in the musical world by conscientiously living up to the highest standard of perfection. Hear this instrument at the Blairmore Chautauqua.

The local baseball team journeyed to Cranbrook on Saturday morning last. On Sunday games were played with Wyalit and Cranbrook teams, the locals being defeated in each case.

Frank Sanatorium Notes

Last Friday evening the ladies of Blairmore entertained the patients and staff to a whist drive, which was thoroughly enjoyed and appreciated by all. After some very exciting playing, the prizes were won by the following:

First prize for Ladies by Mrs. Howe and Mr. Duff, while Mrs. B. Passmore and Mr. Lord made sure of the victory's booty prizes.

After a very close count, Mrs. Knight and Mr. T. Rounding captured the first prize for the men and ladies. Many of the patients tried hard to break into the winning column via the lobby route, but the staff beat them out through Miss M. Cockburn and Mr. Nicholson after a great fight.

Refreshments were served, while the scores were being checked and afterwards the winners received their prizes. The singing of the national anthem brought the proceedings to a close, everyone voting the evening a wonderful success.

The lobster sandwiches were delicious. If you don't believe us, ask Capt. Knight.

Jack Ramsey was in his element during the whist drive, but he always was a devil with the ladies.

Some of the boys took advantage of the warm evening to sport their white silk shirts. We could never afford one on a dollar-per penny.

Who was the fresh guy that tried to hold a lady's hand under the table and got off a pin instead.

We would like to know what the gentleman who was continually telling his partner how and when to play trumps thought when she quietly informed him after the game that she had no trumps. We cannot all be card sharks.

The monthly auto ride, given by the Red Cross, was enjoyed by a number of the boys last Thursday. The only thing necessary to complete the afternoon's pleasure was a boat when we arrived at the lake, but the only one we saw was under the lock and key.

Messrs. Chesson, Valgar and Campbell returned from their fishing trip last Sunday night. That they had a successful trip was evidenced by the fish they brought home. When the fish were received from the trout for breakfast. We are looking forward to hearing some great fishing yarns this week.

To Mitchell belongs the honor of catching the largest trout brought into the San so far this season. It weighed 1 1/2 pounds. Oh, yes, he had it photographed with all its trimmings.

Dr. and Mrs. Baker and Capt. and Mrs. Knight left on Tuesday afternoon on a fishing trip somewhere in British Columbia. We expect to hear some fishy (I mean "fishy") tales on their return.

Friend MacLeod is not the only one who has found the spring an interesting place to visit. We notice T. Rounding frequently wanders that way. We wonder if it is to calm the fears of a certain young lady who has been terrified by some doleful bovine that grazes in the vicinity.

We welcome the return of our genial occasional aide, Miss Branson. Her return will be able to finish our argument that the female of the species is more artificial (I mean "dangerous") than the male, before she leaves again.

Those notorious persons in the San need not be afraid that the desperado who has been roaming around the slide will trouble them, now that our dogmatic warrior, Mr. Whiteman, has again buckled on his armor. It's tough luck, "White," they spoiled your beauty sleep on Sunday last. It was ever thus!

We would like to know how Whiteman lost his companion while out fishing the other evening. We know she is not very big, but neither was your hook; yet you managed to bring it home.

Messrs. J. Wally and F. Harley bid farewell to all last Monday night. All the good things they wish themselves is our warm wishes to them on leaving the San.

One of the boys has requested us to inform S. H. A. that their detective work is greatly admired, although E. T. C. still remains a poor look.

Mr. Robertson returned from leave, reporting that a good time was had. Someone else is due to have a good time, now that he has returned.

NON-SCRIPT

A new national park to be known as the Mount Revelstoke National park has been established in British Columbia by the Dominion government. It is located in the British Columbia railway belt in the district where the belt is traversed by the Illecillewaet river and lies approximately between the fifth and sixth meridians.

Old Fashioned Girls Give Songs of Eighties

Four Clever Vivacious Young
Ladies Have Unique Program
at Chautauqua

On the opening day at Chautauqua comes an organization of clever and talented young women who have struck a new note in the field of musical programs.

They have gone back to the days of long ago, somewhere in the eighties, and

have uncovered a veritable gold mine of delightful old songs. These they render in the costumes of bygone days and they are certainly attractive and entertaining. Their two concerts are delightful through and through abounding in both vocal and instrumental music, and they will prove to be one of the big features of the entire six days of Chautauqua.

In the evening, Burnell Ford, noted inventor and electrical scientist, will deliver his great lecture and demonstrate the wonders of electricity.

Mrs. D. Drain spent the week in Blairmore.

Crop Average and Crop Yield

Addressing the Canadian Club of Regina during the week of the Provincial Exhibition, Dr. Talmie, the Dominion minister of agriculture, laid emphasis upon the fact that, despite a steady and really large increase in acreage under cultivation in Canada during the last ten years, there had been a marked falling off in yield per acre, with the result that the farm production of the country had not grown in volume to the extent that might have been expected from the increase in acreage planted in crop.

Commenting on this disappointing result the Federal minister of agriculture said: "An increase of three bushels to the acre in the production of wheat in Canada would mean an annual increase of over \$18,000,000, and over \$500,000,000 could be added to the wealth of the country every year if the farmers would exercise more intelligence and enterprise in their agricultural operations."

These are startling figures even in this age when we have become accustomed to reckoning things in the millions of dollars. And Dr. Talmie, speaking by the book, the official statistics of Dominion and provincial governments bear out the assertions he made.

It is assuredly in the interest, not only of the country as a whole, but in the interest of the individual farmer that the causes of this decline in yield per acre should be ascertained and steps taken to check its further progress and to bring about a steady increase in yield. There is far more money, and infinitely larger profits, in increasing the yield per acre than in largely increasing the number of acres in crop which produce a comparatively small yield.

Dr. Talmie suggested certain remedies. First, a large increase in yield can be obtained from a more general use of good seeds. Second, an intelligent rotation of crops will inevitably produce larger yields. Third, the introduction of more live stock on the farm will tend to the same much desired end.

There are other points which Dr. Talmie did not dwell upon, but which must suggest themselves to any person journeying through the grain fields of the West and along our country roads. First and foremost there is the question of weeds. Western farmers spend huge sums of money annually in "bad" insurance premiums, but the annual loss from hail is but small in comparison with the annual loss resulting from the decreased yield because of weeds. Thousands of dollars are spent annually in fighting the gophers, and in Manitoba and Saskatchewan this year hundreds of thousands of dollars have been expended in the effort to overcome the grasshoppers. And it has all been money well spent. But year after year weeds take a greater toll

than these pests without halt the excitement or effort to eradicate them and stop the loss.

In many directions government and farmers' organizations are striving to improve the condition and advance the prosperity of the farmers, but thousands of farmers are themselves neglecting a matter the control of which is in their own hands. They are growing weeds instead of wheat, oats, barley and flax. Where there is an abundant crop of weeds there cannot be a heavy yield of grain. Sooner or later the whole of Western Canada will have to battle itself in connection with the weed problem, and the sooner the better for all concerned, and the cheaper in the long run. Public opinion on the question is sadly asleep with the result that a weed official who proceeds to fearlessly do his duty quickly makes himself a most unpopular individual. Another difficulty to be found in the weakness of so many men to acquire more land. More acreage seems to be their ambition rather than more grain. They seem to be happier with 500 acres yielding 14 bushels to the acre, or 7,000 bushels, than with 350 acres yielding 20 bushels to the acre, or a like total crop of 7,000 bushels, although it is cheaper to plow, seed, harvest and thresh the 350 acre crop than it is the 500 acre one, not to speak of the capital tied up in the larger acreage which, in reality, is producing nothing. Men who are not tilling the land they have as it ought to be tilled, are constantly mortgaging their future to buy more land and more equipment to work that land. Such men are not farmers, but land speculators. The West needs more of intensive cultivation, that is, better farming, rather than more acres brought under the plow.

Relief for Suffering Everywhere—He who has made miserable the suffering that comes from indigestion and has not tried Partridge's Vegetable Pills does not know how easily this formidable foe can be dealt with. These pills will relieve where others fail. They are the result of long and patient study and are confidently put forward as a sure corrector of disorders of the digestive organs, from which so many suffer.

Prince Edward's Work

He Does His Work Well Because He Is a Highly Trained Worker.

On the prince's part, it is a remarkable achievement to have carried out his mission in such a way as to create this strong bond of sympathy between himself and the people of the Commonwealth. Beyond question he has done Imperial service of the utmost usefulness. But we venture to think he has greater assets than the charm of his personality. He does his work well because he is a highly trained worker. From his boyhood he has been prepared, and has prepared himself, for one of the most difficult and responsible employments in existence.

We believe that, consciously or unconsciously, Australia and the other Dominions realize this fact and the stability that it gives to the Empire. Since they have signed the Prince's treaty has been brought home more clearly to them than ever. They find that he is no amateur, but a skilful and diligent professional worker, and for that reason they give him not only the affection which his endearing personal qualities command, but their respect.

Minard's Liniment Relieves Distemper.

Cool and Heartless
"Woman! You have ruined me with your extravagance. I am penniless. There is only one place for me now. Good-bye. I'm going!"

NOTHING LIKE IT FOR BRONCHITIS AND WEAK THROAT

Remarkable Cures in the Worst Cases Reported Daily

Cures Without Using Drugs
Doctors now advocate an entirely new method for treating bronchitis and irritable throat. Stomach digestion is no longer necessary.

The most approved treatment consists of a healing vapor resembling the pure air of the Adirondacks. This soothing vapor is full of germ-destroying substances, and at the same time is a powerful healing agent. It is sent to the bronchial tubes and lungs through a skillfully devised inhaler that can be carried in the vest pocket. Simplicity itself is the keynote of this splendid treatment.

CATARRHOZONE is the name of this wonderful invention that is daily curing chronic cases of weak throat, bronchitis and Catarrh. Every breath through the inhaler is laden with soothing, healing substances that destroy all diseased conditions in the breathing organs, it can't fail to cure because it goes where the trouble really exists, and doesn't attempt to cure an illness in the head or throat by means of medicine taken into the stomach. Catarrhozone is a direct breathable scientific cure.

There is no sufferer from a grippy cold or any winter ill, that won't find a cure in Catarrhozone, which is employed by physicians, ministers, lawyers and public men throughout many foreign lands. Large size lasts two months and costs \$1.00 and is guaranteed small size 50c. Sample size 25c, all storekeepers and druggists, or the Catarrhozone Co., Kingston, Canada.

The Peace River Country

Everything is Set For The Work of An Expansion

The C.P.R. will operate the Dunsmuir railway for the next five years. This is the essential fact in connection with the arrangements recently entered into between the McArthur Company and the provincial government on the one hand and the C.P.R. on the other. Four hundred and fifty miles of railway line is directly involved. This is a length of line practically equal to that from Montreal, Que., to London, Ont., from Winnipeg to St. Paul, or from St. Paul to Chicago, and 60 miles farther than from Edmonton to Coats on the United States boundary by way of Calgary and Lethbridge. There is room for vast development in such a stretch of country; development which must in large measure follow the railway service.

The coming five years means everything to the Peace River country. Conditions have become established. Population is settled. Everything is set for the work of expansion. With railway service and the fact that there is no doubt as to the progress of the district and its people.

While the actual mileage of the railway is sufficient to give the enterprise a position of first-class importance. At Peace River town the railway connects with 450 miles of navigable waterway on the Peace. Along the whole of this distance the river flows through a region of climate and soil suitable for farming settlement. Already people are pushing in, and occupying desirable locations, depending on the river for present communication and expecting that settlement and development will ultimately bring railway facilities. The 450 mile stretch of unbroken river navigation is only part of a great system of waterways extending to the Arctic ocean through a region carrying possibilities of development of one kind or another — development that depends on railway communication and the push and enterprise that accompanies it. —Edmonton Bulletin.

England's Arable Area Increased

Since 1915 there has been a steady increase in the arable area of England due to the government policy of encouraging the production of food-stuffs. A record hay crop is expected this year, but the outlook for the fruit crop is poor. Of apples and pears only 20 percent of the average is expected and the small-fruit crops are also below average.

Overdressed Youth: "Here is a ha' penny for you, my man, and pray tell me how you came to be so miserably poor."
"Mondians! 'Ah, art I was like you—too fond of giving large sums of money to the deserving poor!"

Half Section at \$130 Acre
A record price for land—Twenty-five miles from Regina in the Peace district is reported in the sale of a half section for \$35,000, or a little better than \$140 an acre.

Make Life on The Farm Appealing

To Meet the Difficulty in Connection With the Exodus of Boys and Girls

Since the war a problem which has been worrying agriculturists all over the country is that of keeping the boy and girl on the farm. All the literature that I have seen on the subject shows quite plainly that no panacea has been discovered in connection with the exodus of the boys and girls from the farms. I think that hon. gentlemen will all agree that we can at least go a long way towards solving the problem by adopting better farm methods; by making the home more attractive; by keeping better livestock; by making more profit on the farm, which will make possible more comfortable conditions such as will be conducive to happiness and contentment; by making conditions tolerable for the farmer's wife; and generally by doing everything we can to make life on the farm appealing. In addition to this I think that good roads and cheap automobiles should play a very great part in helping to keep the young people on the farms by rendering very valuable assistance to the farmer in different ways in connection with his work and by enabling him and his family to move around and mix with the neighbors, thus obtaining some social pleasure out of life. —Hon. S. F. Talmie, in House of Commons, May 14, 1920.

Strength of Trees

Two Steel Cables Could Not Move Old Elm

Few people have any idea of the strength of trees. In Boston, Mass., recently, an old elm, more than three feet in diameter, had to be removed from the common. Several of its limbs had been struck off by lightning, and it was supposed to be in a dangerous condition. So one of the tree-felling devices used in France for tearing down buildings, was brought in to try to pull it. This is a machine that is worked by a couple of men moving a lever back and forth. A cable was fastened to the tree trunk, and it should have come up by the roots, all theory being correct. Instead, it broke the first cable of steel—one inch thick—and when the two were wound around that old trunk, the tree shivered a bit and broke them. The contractor gave it up as a bad job, and put several men on with axes to cut the roots.

SUMMER COMPLAINTS KILL LITTLE ONES

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets in a few hours he may be beyond aid. These Tablets will prevent summer complaints if given occasionally to the well child and will promptly relieve these troubles if they come on suddenly. Baby's Own Tablets are always to be kept in every home where there are young children. There is no other medicine as good and the mother has the guarantee of a government analyst that they are absolutely safe. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A Good Record

Granting that we have had our off years, we should remember that the average production of wheat per acre in Canada for the last ten years has been 19.25 bushels, while that of the United States has been only 14.72. And that, in spite of all the calamities which drought, hail, wind and frost have brought us.

"Playing the Game"

"Did yuh get anything?" whispered the burglar on guard, as his mate emerged from the window.
"No! I didn't! This dump belongs to a lawyer."

"Get that hard luck!" said the first. Then, as an afterthought: "But did you lose anything?"

Montreal, May 29th, '09. Minard's Liniment Co., Limited.

Gentlemen—I beg to let you know that I have used MINARD'S LINIMENT for some time, and I find it the best I have ever used for the joints and muscles.

Yours very truly, HOGAN. The Champion Clog and Pedestal Dancer of Canada.

The sewing needle is one of the oldest implements used by man. Bone specimens have been found in the reindeer caves of France.

DEPENDABLE
tires, like good roads, always pay for themselves many times over.
Partridge Tires have a supreme hand-built dependability which makes them savors of dollars, time and convenience. They are quality from tread to the inside of the casing.

PARTRIDGE TIRES
Game as Their Name

There is Only One Difference Between These Houses—That is OWNERSHIP

These houses were built at the same time and cost the same. The contractor built one for Harry Duncan. Seeing the good value for renting prospects, the contractor built a second house and rented it to Tom Sinclair.

Harry Duncan owns his own home; he takes pride in it; keeps it looking fine. His monthly payments are less than Tom Sinclair's rent—which house would you prefer? Tom Sinclair has no interest in his house; he wouldn't improve it for someone else, and now after five years rent collecting the contractor is selling the house. Tom Sinclair must move, although he has paid enough in rent to buy the house.

There is the difference between renting and owning—there is the difference between spending and investing.

Hens Must Work

It is a Poor Hen That Will Not Pay For Her Own Feed

The United Farmers of West Zorra, Oxford county, intend to stand no further non-vote from the class of hens known to the poultry world as "star boarders." A hen-culling campaign throughout the whole township will begin, and the otiose birds that refuse to do a decent stint of work will have to go into the pot or the oven, where they will serve a useful purpose. At any time it is a poor hen that will not pay for her own feed, and the present high cost of living for chickens has made it imperative that no mercy shall be shown to those that will not give an adequate return for what they take in. It is a case of the survival of the fittest, directed by human intelligence instead of natural selection. —Toronto Globe.

Miller's Worm Powders destroy worms without any inconvenience to the child, and so effectively that they pass from the body unperceived. They are not ejected in their entirety but are ground up and pass away through the excreta. They thoroughly cleanse the stomach and bowels and leave them in a condition not favorable to worms, and there will be no revival of the pests.

Pigeons carried 700 messages for the R.A.F. between April, 1918, and the armistice, often saving human lives and valuable airplanes.

The Smallest Nation

Monaco Has Thirty Square Miles of Territory and 11,513 Inhabitants

Monaco is the smallest nation on earth, according to statistics recently gathered. The entire area of its territory is eight square miles, and the population is 11,513. It is situated on the Mediterranean. The prince was absolute ruler until 1911, when a representative government was set up. San Marino claims to be the oldest state in Europe. It has thirty square miles of territory and 11,513 inhabitants. Lichtenstein, a small principality in the western border of Switzerland, has a population of only 10,716, while Andorra, located between France and Spain, has only 5,231 inhabitants. It is the smallest independent country as regards population.

Sprinkle Grape-Nuts over ripe fruit or berries and you'll save sugar.

Russia Defies Britain's Order To Stop Advance

London.—The Russian Soviet's reply to Great Britain's call for a halt of the Bolshevik advance in Poland is a refusal, according to the London Times. The newspaper says that the ground taken is that the armies would not obey an order to halt, and will only be content when they reach Warsaw, which had been promised to them for loot.

Berlin.—Fighting is now going on virtually on the plains before Warsaw, says the Tageblatt's special East Prussian frontier correspondent. If the Red army succeeds in breaking through the Chorzelle Putzack line it will have arrived before the forts of Warsaw.

Chorzelle is about 70 miles north of Warsaw, while Putzack lies about 35 miles north of the capital.

Heavy fighting is reported by the correspondent to be proceeding at Novgorod, northwest Russia. He says that, on August 1 and 2, Russian reserves, comprising thirty thousand infantry and a regiment of field artillery passed through Grajevo on the way to Novgorod.

Paris.—The Bolsheviks are being held by the Poles at Brest-Litovsk, and have suffered a loss of 500 killed and drowned there on repeated attempts to throw their forces across the Bug River, according to Wednesday's communiqué from Warsaw, which officially confirms facts previously announced.

The communiqué announces that the Reds have forced the Rivet Narw, before Lomza, and that Bolshevik cavalry patrols have reached Ostrow, 53 miles northeast of Warsaw. Near the Prussian border Bolshevik forces have occupied Kolno, 18 miles north-west of Lomza, and have attacked the fortress of Ostrolenka, 22 miles southwest of Lomza.

The Poles were reported to be making a stand at the latter place.

The communiqué reports fierce fighting along the Bug, the Reds having forced the stream in the region of Archizyn and the Polish troops endeavoring to throw the Bolshevik back across the River.

Riots in Denver

Mob Entered the Denver Post Building and Wrecked the Presses

Denver, Colo.—Nearly a score of people were injured, several of them seriously, and two cars were badly damaged as a result of an attempt of striking car men and their sympathizers to prevent operation of cars by strikebreakers. Shots were fired, wounding several persons.

The mob entered the Denver Post building and wrecked the presses and other equipment. It previously had broken practically everything in the structure.

After partially destroying three cars in front of the cathedral, the mob overturned the cars and planned to set them afire. The crowd in front of the cathedral was estimated at 5,000. At 8.30, Commissioner of Safety Downer announced that Gov. Shoup had been asked to confer with the city officials on the subject of the immediate use of troops to quell the disturbances.

Men bearing guns from the wrecked cars paraded the streets.

Man Without a Country

Premier Hughes Will Prevent Return Of Mannix to Australia

London.—Message from Australia quote Premier Hughes as saying that Archbishop Mannix would not be allowed to return to Australia.

In an address at Melbourne, Australia, Premier Hughes severely attacked the archbishop, whom he declared was responsible for much of the present sectarian bitterness now prevailing in this country. Mr. Hughes stated that Archbishop Mannix does not represent Australia or the Irish nor any other question, and is the acknowledged Sinn Fein leader in Australia.

Druggists Warned

Toronto.—Druggists have been warned by the Ontario College of Pharmacy, that any druggist convicted of contravention of the Ontario Temperance act, will lose his certificate and be prevented from acting as a member, director or shareholder of any incorporated company dealing in drugs or medicines in Ontario.

BRITAIN ISSUES A WARNING TO BOLSHEVIKI

TO STOP POLISH ADVANCE TO CROSS OCEAN IN 50 HOURS

Great Britain and Allies May Be Forced to Decline War On Russia

London.—According to the Herald Premier Lloyd George, during a conversation with M. Krassin and Kamenef, presented an ultimatum to the Bolshevik representatives, demanding an immediate and unconditional cessation of the Russian advance into Poland, even before signing an armistice, or otherwise, Great Britain would declare war.

The newspaper declared that the British note sent to Russia is a threatening character.

The Daily Mail also reports that the note is in the nature of an ultimatum. "It says plainly," asserts the newspaper, "that Poland is being over-run, and if, instead of hastening an armistice, the Bolshevik armies continue to advance, the situation foreseen in the note of July 20 will have arisen, and Great Britain and her allies will be obliged to assist in the support of Poland."

The Daily Mail also declares that the Prime minister indulges, in some frank talk about the Reds, to Kamenef and Krassin.

Propose Stiff Penalties

\$2,000 Fine or Jail for Intemperance In Ontario

Toronto.—It is believed that as an outcome of a conference held at the parliament buildings between Police Magistrate George T. Denison, of this city, and Attorney-General W. E. Roney, that \$2,000 fines for breaches of the Ontario Temperance Act, as well as imprisonment may become fairly common in the Toronto police court. So far, heavy fines are uncommon.

It is understood that Magistrate Denison was instructed on lines similar to the notices sent out by the attorney-general to the magistrates throughout the province to the effect that prevention, not revenue, was the object of prosecutions for breaches of the Ontario Temperance act, and suggesting imprisonment as a means to this end.

Damage from Hessian Fly

Ontario Counties Report Damage to Fall Wheat From Pest

Toronto.—Serious damage has been done to fall wheat crop by the Hessian fly, in a number of counties in the southwestern section of this province, according to reports received by the Ontario department of agriculture. Reports from Norfolk state that some fields there suffered from 40 to 50 percent of damage from the insect. Barley has headed well, but the straw is short. Oats promise a generous yield with plenty of straw. Spring wheat has not done so well as the other grains mentioned. Owing to continued catchy weather, a good deal of hay is still lying in the fields and as a result there will be considerable poorly-cured clover and timothy.

With the Gentle Bolsheviks

Wearing of a White Collar Results In A Death Warrant

Allenstein, East Prussia.—Threats by the Russian soviet forces to execute instantly any civil or military subjects of the allied powers who pass the frontier, are reported by refugees arriving here from the region to the east being occupied by the Russians. This has caused the inter-allied commission in the district to announce no person will for any reason be permitted to enter the Russian controlled zone.

The refugees declare that the Bolsheviks are shooting all landowners and property holders and others suspected of having money. The wearing of a white collar of any sort is tantamount to a death warrant. Officials of the inter-allied commission declare that the majority of these reports are supported by circumstances indicating their truth.

High Wages Hits Farmers

Montreal.—That there is a scarcity of agricultural labor, and further that such labor as is offered, commands unheard-of wages, was the consensus of opinion of the many farmers who met at St. Norbert, Berthier county, on the occasion of a demonstration of labor saving haying machinery.

TRANS-ATLANTIC SERVICE BY GIANT DIRIGIBLE

TO CROSS OCEAN IN 50 HOURS

Germans Are Building Airship To Equal The Finest Ocean Liners

Paris.—The giant new trans-Atlantic air line which German private enterprise is planning to establish will be operated with dirigibles greater than any which have heretofore been flown. They will have 300 cabins, each with two beds, and will be equipped with kitchens, lounging saloons and promenades, the equal of those provided on the finest ocean liners.

It was learned here that the ships will be fitted with the basic design of the German inventor, Goering, whose craft were said to be the models of the R-34—the ship in which British airmen sailed across the Atlantic ocean and back last summer.

The new dirigibles are to be 800 feet long, 80 feet wide and 100 feet high. The envelope will be semi-rigid, and the car will extend almost the entire length of the ship. Motive power will be furnished by 34 gasoline motors, each of either 150 or 200 horsepower, arranged so that the ship can be navigated in all directions, without employment of ballast. The arrangements are such that a complete power breakdown or an explosion will be impossible.

The dirigibles will be equipped to make a 4,000 mile non-stop flight at an average speed of 68 miles per hour. The dirigibles will be designed to land in water, and in that element will have a speed of 35 miles. The flight time from Germany to New York will be approximately 50 hours. Herr Colman, director to the Zeppelin factories, will be the general manager of the new enterprise.

NEWS OF THE PROVINCES

SASKATCHEWAN

Regina.—The G.W.V.A. in Saskatchewan is about to make a considerable drive for membership throughout the province.

Regina.—According to the Regina Leader, there is very little prospect of any immediate steps being taken by the Saskatchewan Co-Operative Elevator company towards the formation of a pool for the marketing of the 1920 wheat crop.

Regina.—The Dominion government has approved of Saskatchewan's \$1,800,000 road building programme, according to an announcement of Hon. S. J. Latta, minister of highways. With the provincial government \$2,700,000 roadway plans the province will spend \$4,500,000 on good roads.

BRITISH COLUMBIA

Vancouver.—The price of coal to householders here has been advanced from \$14.50 to \$15.5 a ton.

Westminster.—Indications are that the total cherry crop will be about the same as last year. Apricots will exceed last year's output by 20 percent, and there will be a slight increase in peaches. Plums are variable, and the total crop will run about 80 percent of last season's.

Vancouver.—Nearly \$400,000 worth of farm lands in the northern central part of the province have been sold by one private company during the past three months. They were all purchased by British or Eastern Canadian farmers.

ALBERTA

Lethbridge.—To Skiff district, a new settlement along the Lethbridge-Wyburn line of the C.P.R., belongs the record for early shipment of 1920 grain. A carload of rye was shipped from that town Wednesday. The town is the centre of a big new growing area, which will have a high average crop this year.

Edmonton.—A special train of 200 American farmers is on its way to Alberta to look over prospective purchases in the Peace River country.

Calgary.—The consensus of the latest detailed reports received indicate that every prospect of a good harvest is almost every part of the province. General rains accompanied by warm weather have produced ideal growing conditions.

W. N. U. 1328

Premier Speaks On Importance Of the Press

Send Greetings to Britain

United States Sends Message on the Sixth Anniversary of Entry into War

New York.—Greetings on the sixth anniversary of Great Britain's entry into the war were cable to Field Marshal Earl Haig and Admiral Sir David Beatty by Franklin D. Oiler, national commander of the American legion.

"Honor to the statesmen who had the courage to assume responsibility of that decision," reads the message. "Honor to the British millions who with valor unsurpassed and hearts of oak, executed that decision on Britain's many fronts. When we contemplate what would have been the state of affairs in the world today had not Britain acted as she did, the trials and difficulties of the present hour, however vexatious they may seem now to be, sink into comparative insignificance."

"United States forces have had the privilege of service on land and sea under British high command. The memories of the associations of these great days will never perish. They will perpetuate themselves in our hearts and thus serve to perpetuate the indissoluble friendship of the British and American peoples."

Coast to Coast by Plane

Progressing With Survey of The Cross Canada Air Route

Winnipeg.—Surveying of a coast to coast, aerial route for commercial aviation, recently undertaken by the Dominion government, is practically completed in certain districts and within a year's time, trans-Canada flying will be inaugurated, according to the statement of Major R. D. Hobbs, inspector of civil aviation, of Ottawa, who has arrived in the city.

Major Hobbs said that the development of commercial aviation is dependent on a through route from coast to coast. The most difficult stretch of country between Winnipeg and Sudbury is almost completed. "When we have covered the mountain passes and found adequate landing stages, the survey will be almost completed. Within a year's time we should have a regular coast to coast passenger service," he declared.

Murders in New York

Homicide Record of 52 Murders In Seven Months Is Unparalleled

New York.—Fifty-two murders have been committed in New York city during the seven months since January 1, setting a homicide record unparalleled in many previous years, it was stated at the district attorney's office.

In the six convictions returned in these cases, none have been for murder in the first degree, in 16 of the 52 murders no arrests have been made.

May Sit in West

Railway Commission Likely to Hold Sessions in Both East and West

Ottawa.—In addition to the opening hearing by the railway commission of the application of the express companies for an increase of forty percent, in rates to be held at Toronto on September 2, the board has decided to have other sittings, both in Eastern and Western Canada. The dates and places where evidence will be taken will be announced later. In connection with the objection taken to the proposal to confine the hearing of the application of the railways for thirty percent increase to be held at sittings in Ottawa, it is probable that the board will give consideration to the west also, and make an announcement at an early date.

Turks Against Greeks

Constantinople.—Turkish Nationalist forces opened a bitter offensive against the Greeks along a sixty mile front in Asia Minor on Monday. The battle line extends along the Baghdad railroad westward from Kutahia to Simas.

Ottawa.—Speaking before a gathering which included his excellency the governor-general, members of the government and of parliament, delegates to imperial press conference from the four corners of the empire, and others prominent in the life of the Dominion Premier Arthur Meighen enunciated the principal, which, in his opinion, should govern the writers and distributors of news.

"The distribution of news is now the greatest trust in the whole body democratic," he declared. "The opportunities for good are infinite, the possibilities of mischief are just as vast. In my way of looking at it, there is only one motto—an editor needs to bother much about and that is to tell the truth. For a good newspaperman, I think there is only one proverb, 'the truth shall make you free.'"

Mr. Meighen explained to the gathering that there were a number of ways in which newspapermen might fail to live up to the spirit of this principle. Mistatements might be made, understatements or overstatements published, but the favorite method, he declared, was the half-truth. Certain facts were torn from other facts of possibly greater importance and featured, with the result that a wrong impression was made on the public mind. He made a plea for the better presentation of the facts in the press, declaring that they had a work to perform which was of vital concern to the community as government itself.

The prime minister asked support for the League of Nations. "Let us encourage the league of nations. Canada intends to do her full part in the work of making it succeed." He said there never was such overwhelming necessity as how to direct the currents of British opinion and expression towards the end of peace and goodwill among men, as there was today.

Good Fishing Season

Record for First Six Months Shows Increase Over Last Year

Ottawa.—Canadian fisheries, both in amount of product and value, made a good record for the first six months of the year ending June 30. Sea landed on both coasts amounted to 2,837,424 cwt., valued at \$10,564,146. For the same period last year the catch totalled 2,546,773 cwt., valued at \$9,939,495 or \$1,170,651 less than for the first six months of the present year.

Of the total catch for the six months, 1,974,362 cwt., valued at \$7,294,459 were taken from the Atlantic and 862,962 cwt., valued at \$3,269,687 from the Pacific.

What About Belgium?

Germany Says She Will Not Permit Violation of Her Territory

Berlin.—The German government is determined to prevent, by all means, the entrance from sending troops through Germany to help Poland, and according to a declaration made in the Reichstag by Dr. Walter Simon, the foreign minister, Dr. Simon intimated that if the necessity arose Germany would fight to prevent such a "violation" of German territory.

Fate of Prisoners in Russia

Paris.—Thousands of prisoners of war in Russia, Siberia and Turkestan must die, according to Dr. Fridtjof Nansen, who was sent recently by the League of Nations to Russia to handle the question of repatriation of prisoners. Dr. Nansen added there were 175,000 prisoners remaining and it would be necessary for the interested nations to supply \$2,750,000 to repatriate them.

Wheat Certificates

Winnipeg.—The first payment of a participation certificate issued by the Canada Wheat board has been made. Approximately 900,000 certificates have been issued, it is said, and the first participation is at the rate of 40 cents per bushel. A second payment of at least ten cents per bushel is expected. The first disbursement will amount to \$30,000,000 or \$35,000,000, according to members of the wheat board.

Newspapers and Community Development

No movement ever attained success without publicity and in the nature of things any movement requiring for its success the support of numerous persons must have the invaluable aid of a common mouthpiece. The kind of publicity needed in this development is afforded by the local paper at every stage of its progress. The local editor should be and usually is conversant with the community's needs; he is wholly in sympathy with and is an enthusiastic supporter of every undertaking that is calculated to make his town bigger, better and more enterprising.

The first evidence, therefore, of a community's awakening is to be found in its local newspaper, and the first act of those initiating a movement for local development is to enlist the services of and work hand in hand with the paper.

But this fact must not be misconstrued. The newspaper is a business institution; the same is a dry goods or grocery store. It must give a financial return for the money invested in it and for the labor expended upon it. The greater part of the exploitation performed by a newspaper is more directly for the benefit of something or somebody else than for the publisher himself. But paper, ink, type and everything necessary to produce a newspaper cost money and for financial support the newspaper publisher must look to those who derive benefit from the publicity it affords.

The benefit arising from the publishing of a newspaper are not limited to subscribers and advertisers. The paper is a constant worker in every movement that tends to improve conditions in the community. Its subscribers and the advertisers make its existence possible but they usually are a small part of the community of which it is a benefactor.

The indirect benefits derived from advertising in the local paper and from using it for advertising purposes are double and triple the direct benefits. It is through the newspaper that the community speaks on all occasions on which the community desires to be—and if its best interests are to be served—must be heard. But the community must not as a community forget that the publisher of the paper is at his own expense exploiting the community and benefitting each member of it as much as—perhaps more—than himself.—Ed.

Had None

The teacher exacted sternly, at the small boy who stood in front of her. He was convicted of the heinous charge of stealing taffy from one of his school fellows.

As it was his first offence, however, she did not desire to inflict corporal punishment—a moral lecture, she thought, would fit the case.

"Bear in mind, Bobby," she concluded, "that these temptations can be resisted, if determination is used. Always turn a deaf ear to temptation."

The child gazed solemnly at her. "But teacher," he exclaimed, "I ain't got a deaf ear."

A Grand Game

A well known golf player met an old friend, whom he asked to come and have a game at golf.

"What's good?" asked his companion. The sportsman took his friend along to the links and then said:

"Now give me your best attention, and I'll show you."

So saying, he took a ball from his pocket and placed it on a small heap of earth. He made a furious drive at it and missed it. Then he tried a second time, but missed it again.

"A grand game, golf!" said his friend.

"A grand game, golf!" exclaimed his companion.

"But,—(after a pause)—what's the way law for?"

From Newspaper Dictionary

Puck: Clump of bushes—where the body was found.

Scouty attire—What the people escaped in.

Heart of the business district—District threatened by fire.

Historic landmark—Something about to be torn down.

Hearty breakfast—Something eaten by the condemned man.

Age! refuse—Any man over 60 who lives alone.

Crows' Nest Pass Annual
Chautauqua

BLAIRMORE, From Friday, August 13th to Thursday, August 19th

Chautauqua brings six days of wholesome entertainment, splendid lectures and inspiring music. Eighteen different attractions—all at a price so low as to appear almost unbelievable in these days of "sky-the-limit" costs.

\$3.00 Buys a Season Ticket admitting to every program of the week. High school students \$1.50, children's tickets \$1.00. Below are a few of the feature events.

"It Pays to Advertise"

This great comedy success is to be ably presented on the fourth night by the Keighley New York Players.

FERDINAND FILLION

Prominent French violinist appears in two recitals on the 5th day, assisted by Gabrielle Claus, dramatic soprano, and Frances Beal, violinist.

BURNELL FORD

Noted inventor and electrical scientist comes on first night with remarkable demonstration of the wonders of electricity.

OLD FASHIONED GIRLS

A sterling musical company of four charming and talented girls. Featuring vocally and instrumentally the ballads of long ago.

DAILY PROGRAM

Six Days of Worth While Events

SEASON TICKETS	DAILY SCHEDULE
Adults.....\$3.00	Afternoon Concert.....3.00
Students.....1.50	Afternoon Lecture.....3.50
Evening Concert.....8.00	
Children.....1.00	Evening Lecture.....8.45

Aerial League to Hold Derby

A route has been mapped out for a trip around the world by aeroplanes by a special joint commission of the Aero Club of America and the Aerial League of America, which recently returned from a tour of the world.

A test flight, preceding the derby, will start in London, moving east to Tokyo and thence to Seattle and New York. This flight will be made in an airplane with a capacity for ten passengers to see certain flying conditions of the proposed route. The tentative route will be as follows:

New York to Seattle; to Yokohama, to Shanghai, to Bangkok, then to Cebu and Delhi, to Beaded, to Karachi, India; to Rome, to the Irish coast, to London, Newfoundland and New York. The distance is 22,207 miles.

No date for either the test flight or the derby was announced.

Ward Waters Trio In Two Programs

Delightful Entertainers Who Appear on Chautauqua Platform, Second Day

The Ward Waters Trio, which appears at Chautauqua on the second day, present programs of unusual interest and originality, consisting of sketches and impersonations, whistling duets, child impersonations by Mrs. Waters, solos by Donna Foley and other standard numbers as well as novelties.

Ward Waters is a sterling artist who knows the demands of the platform along the lines of entertainment and the program presented by the organization is sure to be of real entertainment and attractiveness.

Hon. C. H. Poole, New Zealand parliamentarian and orator of note, will deliver a lecture of great interest.

What Luke McLuke Says

You may not believe it. But it is a fact that the girls rubber at the men as much as the men rubber at the girls.

There never was a woman who could manage a business the way she can manage a business man.

Any mother can tell you that it takes a lot of calling and shaking to make the rising generation do it in the morning.

Anyway, the profiteers are helping us to obey the Biblical admonition against lying up treasures here on earth.

Another thing we can't understand is why Nature doesn't fix things so that we can sleep as soundly when it is time to get up as we do when it is time to get up.

Sammy Heard From

The Sammy—"Over in America we gotta like bushes fifty feet high."

The Tommy—"I wish I could like that."

Some "apts" can carry several times their own weight with ease.

Of Local and General Interest

Mrs. L. F. Robert returns this week from a visit with her husband at Saunders.

The infant child of Mrs. W. Cross died on Sunday last. Interment took place on Monday.

Miss Violet Sargent returned to Lethbridge on Tuesday noon, after a vacation spent with her father.

The Oddfellows of Fernie and Michel are holding their annual picnic near Fernie on Sunday next.

Fifty cars of flour and feed were destroyed by fire on the premises of J. A. Farquhar & Co. at North Sydney.

The marriage of Miss Annie Korman to Samuel Patterson was solemnized on Saturday last by the Rev. W. T. Young.

An effort will be made by the Chautauqua committee to have the Hon. C. H. Poole remain over Sunday and address a public meeting in the tent during the afternoon.

In a twenty-minute flight between Hamilton and Toronto, a giant American naval aeroplane owned by a film company, established what is regarded as a record for the forty miles between the two cities.

Lieut. Locklear, famous stunt aviator, and Lieut. Elliott, his aide, were both killed when their plane crashed to earth from a distance of one thousand feet when doing feats for a moving picture concern near Los Angeles on August the 3rd.

The remains of the late Mrs. H. S. Pelletier arrived in Blairmore by the express train on Friday morning and were escorted to the Catholic church, where a large audience attended the funeral service, conducted by Rev. Father Cosman. Interment took place at the Catholic cemetery.

W. A. Henderson and C. Chestnut spent a day last week adjusting teeth in some of the big fish up the North Fork river. Charlie says he never saw bigger fish. The biggest one he had to leave on the river bank as he didn't think it fit for human consumption after its head being used as a tent for two nights.

Signor Valentino Rinaldi, ex-king of Italy; Wilhelm Olivera Nova Scotia prince; Pietro Montalbet Discardo, Italian financier, and Longwell, junior, of Urabger; Labrador, spent a couple of days this week canning and fishing along the upper North Fork river. The ex-king says he would rather be weighed at home than waded in the river.

Notice is hereby given to all concerned that ex-members of the Canadian Expeditionary Force, who are entitled to and who require post-discharge dental treatment, must submit their applications to the District Dental Officer at the Headquarters of the District in which they reside, on or before the 1st September, 1920. Applications for dental treatment received after 1st September, 1920, will not be considered.—Headquarters Military District 13, Calgary.

The Winnipeg Grand Army of United Veterans adopted a political platform recently which approves of the re-establishment of returned men by the payment of \$2000, \$1500, or \$1000, according to service. The platform advocates, among other things, proportional representation voting with grouped constituencies, rigid exclusion of Catholics and enemies of the setting apart for the benefit of Canadian soldiers and their dependents of all monies received by Canada from Germany as an indemnity; pensions to compensate for loss of earning power, and higher income tax.

Dr. R. K. Little was a visitor by auto to Calgary this week.

Mrs. Ed. Royle and children are returning from a visit to England, and will reach Herculaneum time next week.

Plans are about complete for an enlargement and remodelling of St. Anne's Catholic church and work will commence next week.

Sir Thomas Lipton's unsuccessful challenger for the America's cup was towed to City Island, off New York, to be dismantled and scrapped. It was estimated that over 35,000 persons visited the yacht the day before she was removed.

A miner named Brooks met death by accident in one of the mines at Coleman on Saturday last. Interment took place Sunday afternoon. Rev. W. T. Young, of Blairmore, officiating. The union members turned out to pay a last tribute of respect to their departed member.

Cowley Happenings

Messrs. Birkett and Webber have recently purchased motor cars.

Claude Scottion, of Terre Haute, Indiana, is at present visiting his brother George.

John Kemmis is at present away on a business visit to the Edmonton district.

Mr. and Mrs. VanAtter, of Edmonton, are guests of H. D. MacMillan at the Cowley hotel.

H. Barnes, of Warden, B. C., has accepted a position as manager of C. & Smith's store here.

Charles M. Edgett has been engaged to fill the position of principal of the school, and will shortly take up his duties.

Miss Edna Fulton is spending a few days with her sister, Mrs. H. C. Morrison, before resuming her duties as teacher in the Blairmore school.

A number of parties have been summoned for fishing without permits and for fishing in closed waters during the past week. Evidently the department intends to enforce the law this season.

Little Harvey Robinson has returned from the Gibson-Galloway clinic, of Winnipeg, after a successful operation and treatment, and it is only a matter of time until he is restored to the normal use of his limbs.

With a view to moving the bridge over the Middle Fork, the municipality has about finished a new grade a half a mile down the river, and will utilize the old railway grade and place the bridge on that grade, which will be a decided improvement.

Except in a few isolated cases, this district expects a normal crop and harvesting will commence next week. A rain at present would be beneficial. A lot of plowing in preparation for next year's crop has been done. No reports of grasshopper damage have been reported.

W. F. Hargrove, after a short visit to Cowley, has again gone north, where he has accepted a position as teacher at Monitor, Alberta. Mr. Hargrove's health necessitated a move to a lower altitude. During his stay in Cowley as principal of the school, he has not only conducted the school work satisfactorily, but has taken a leading part in all social and educational work, and his loss will be severely felt, especially in the conduct of the annual school fair, for the organization and success of which he was mainly responsible. The citizens are sorry to see him go.

Capt. W. A. Beets was a business visitor to Regina this week.

Rev. J. Silleck, of Medicine Hat, was in town for a few days this week.

Harry Fitzsimmons, of the Lethbridge Aircraft Co., was in town on Tuesday.

The Willis Piano is the choice of artists. Hear this instrument at the Chautauqua.

When a girl plays a ragtime so that it sounds like a funeral march, it may be truthfully said she is murdering the music.

Allan Hamilton and family are camping for a week or two up the North Fork, the nearest approach to Nova Scotia in Western Canada.

Give the children the proper start by having them learn on a good piano. Hear the Willis piano at the Chautauqua.

The body of Mrs. Archie Moe, third victim of the Mary's Lake drowning accident of last month, has been recovered near Cranbrook, and was taken to Lethbridge for burial.

It is estimated that the eyes of an expert pianist absorb 1500 notes and his fingers execute 2000 movements every minute. At this rate he ought to strike one million notes in a little over eleven hours.

The latest discovery in the unexplored lands of the Canadian west is a great bed of amber. Amber is a valuable product, and the last place one would have expected to locate it would have been in the Canadian West.

FOUR WELL-BUILT SHACKS

Willis Pianos are again being used at the Alberta Chautauqua, proving conclusively that they give every satisfaction to the artists.

The many friends of Rev. H. Clay will be pleased to learn that he is returning to Canada, and left Liverpool, England yesterday on the C. P. O. S. Prinz Frederick Wilhelm. He will come to Calgary direct and receive his mission appointment after arrival there.

The "Willis" Piano will be used at the Chautauqua. Listen to the beauty of its tone, the body and richness of its sustaining power, the even brilliancy of its scale, all of which combine to make it an ideal piano.

The Chautauqua form of entertainment seems to be securing a stronger hold in Western Canada each year. The combination of light and serious items on the program suits a wide popular taste. It has been the means of introducing speakers of international prominence who have something worth while to tell us and who otherwise would not be heard here.

FARM WANTED

I want to hear from party having farm for sale. Give price and description.

JOHN W. WAIT
Champaign, Illinois, U.S.A.

In Memory

In loving memory of little Dorothy, the infant child of Ethel and the late William Cross, who passed away on Sunday, August 8, 1920.
"Not gone from memory,
Not gone from love;
But gone to the Saviour's throne above,"
(Inspired by her sorrowing mother and sister)

Members of the local subordinate lodge of the I. O. O. F. are reminded of the regular meeting Tuesday night next, when degrees will be conferred.

The case against Sam Saunders, who is charged with breaking into and stealing articles of clothing from the store of the F. M. Thompson Co. on the morning of July 25th, was resumed on Wednesday morning. Denny Kopes and J. Zepas were examined, testifying to the goods being in possession of Saunders at Hillcrest on the 25th, also that he had in his possession a brace, probably the one used with a bit to bore holes in the window frames of the Thompson building. Acting Chief Woods, of Drumheller, also testified to having found the articles, supposed to have been taken by Saunders and sold to a merchant at Drumheller for cash. Mrs. Essie Dorson testified to having seen Saunders walking towards Frank through Blairmore at a very early hour on the 25th July, carrying articles of clothing on his arm. At the request of the defence lawyer, Mr. Putnam, adjournment was granted to Saturday to permit of defence accumulation.
